

Pre-Planning

Pre-Planning & Pre-Funding funerals are two distinct actions.

Pre-Funding

On top of dealing with the loss of a loved one, the realization that the funds to pay for the funeral still must be found can be devastating to a family.

By pre-funding your funeral, you not only remove the financial burden from your family, but also protect those funds from being lost in the event you require care in a nursing home, or from some other catastrophic expense.

Funding your funeral through LCBA not only lifts the financial burden of the funeral from your loved ones, but also provides you with value added member benefits from LCBA.

LCBA funding plans include annuity and life insurance options that offer payment plans up to 10 years! And these products don't require a 1099 form each year!

Pre-Planning your funeral can further be broken down into two separate functions:

Step 1 ~ Gather Information.

This step involves simply capturing biographical information about your life, career, and family. In short, all the things you want others to know and remember – things like hobbies, sports, church, social and service organizations you belonged to and enjoyed.

Step 2 ~ Make Arrangements.

In this step, you sit down with your funeral director and make choices about products and services. You will decide whether you will be having a traditional burial or cremation, what type of casket or urn, the services you'll want, and other details about your funeral. Your funeral director will explain all of the options, outline the costs, and make helpful suggestions. It's painless and it only takes about an hour.

Who is LCBA?

LCBA (Loyal Christian Benefit Association) is a not-for-profit provider of "Life Insurance with a Conscience," using invested premium earnings to provide member benefits and to support volunteer efforts that make your community a better place.

Together with our partner funeral homes and churches we are part of the Tomorrow Together Partnership - a collaborative effort to educate individuals and their families about the advantages of funeral pre-arrangement and about end-of-life planning. We do this by providing free information kits and by offering free, no-obligation seminars at your organization or church.

Individuals and families have many seasons in their lives. The Tomorrow Together Partners are committed to caring for your entire family: first through education about the funeral pre-arrangement process; next by fulfilling your wishes after your death; and finally by providing your family with end-of-life planning information and options to suit whatever "seasons" they now occupy.

For more information, call 1.800.234.LCBA or visit us online at www.lcbalife.org

1 Pre-Planning your funeral lets you make your wishes known so your loved ones don't have to guess, or worry if they made the right choices.

2 It eliminates emotional overspending due to grief or guilt.

3 It gives you a chance to personalize your funeral and make it a celebration of your life.

4 Pre-Funding your funeral can help protect your family from most, if not all, of the funeral expenses.

Need Help Putting It All Together?

Make a one hour appointment
with your funeral director.

Pre-arranging your funeral is one
of the most thoughtful and caring
things you can do for yourself and
your family.
